

It's that time again;

Time to plan for the

Colorado Truck Driving Championships.

As with all of the Colorado Truck Driving Championships in the past, these only come together and work with the support of

VOLUNTEERS!

I am asking for your support to supply volunteers to work in a variety of positions on June 4, 2011. The positions range from Den Mother (working with the drivers) to equipment handlers (moving the equipment) to judges (pre-trip inspection area) to general assignments (photographer, runner, registration, clean-up). No prior experience is necessary for most of these positions.

With the incredible growth the Colorado Truck Driving Championships have experienced over the past several years, new volunteers are more important than ever. All Carriers who have Drivers participating in the event know how important volunteer staffing is to make the event work smoothly. Those who are working to get their Drivers in to participate and are having trouble getting them there for the first time, ask them to volunteer. This will give them a chance to see what the Championships are about and possibly entice them into being a participant next year.

If you have Volunteers available, Please have them contact;

Patti Gillette at the Colorado Motor Carriers Association
303-433-3375, ext. 104 or via email at patti@cmca.com

Remember this event is entirely staffed by volunteers.

Your support is greatly appreciated!
